The village war memorial is located on the main road near to the old school building. It is a splendid example of a village war memorial and includes very helpful information including rank and the place and date of death. Some kind soul has painted black paint on the names inscribed on the memorial. The same person has very helpfully painted the letters on Captain Curties private memorial located in the churchyard. This village is obviously proud of its war hero's and takes great care of its monument.

The Great War

Of interest in the Great Chart Churchyard is the grave of a Victoria Cross winner

Lieutenant General William Knox LEET **VC** CB.  
Formerly of Prince Albert's Somerset Light Infantry. Although he did not serve in the Great War, his award warrants a mention here.

Wimereux is a small town situated about 5 kilometres north of Boulogne. From the centre of Boulogne take the A16 to Calais and come off at Junction 4. Take the road to Wimereux north, D242, for approximately 2 kilometres, following the road through the roundabout. Take the first turn on the left immediately after the roundabout and the Cemetery lies approximately 200 metres down this road on the left hand side. The Commonwealth War Graves are situated to the rear of the Communal Cemetery. Historical Information: Wimereux was the headquarters of the Queen Mary's Army Auxilliary Corps during the First World War and in 1919 it became the General Headquarters of the British Army. From October 1914 onwards, Boulogne and Wimereux formed an important hospital centre and until June 1918, the medical units at Wimereux used the communal cemetery for burials, the south-eastern half having been set aside for Commonwealth graves, although a few burial were also made among the civilian graves. By June 1918, this half of the cemetery was filled, and subsequent burials from the hospitals at Wimereux were made in the new military cemetery at Terlincthun. During the Second World War, British Rear Headquarters moved from Boulogne to Wimereux for a few days in May 1940, prior to the evacuation of the British Expeditionary Force from Dunkirk. Thereafter, Wimereux was in German

hands and the German Naval Headquarters were situated on the northern side of the town. After D-Day, as Allied forces moved northwards, the town was shelled from Cap Griz-Nez, and was re-taken by the Canadian 1st Army on 22 September 1944. Wimereux Communal Cemetery contains 2,847, Commonwealth burials of the First World War, two of them unidentified. Buried among them is Lt.-Col. John McCrae, author of the poem "In Flanders Fields." There are also five French and a plot of 170 German war graves. The cemetery also contains 14 Second World War burials, six of them unidentified. The Commonwealth section was designed by Charles Holden. Because of the sandy nature of the soil, the headstones lie flat upon the graves.

On the 6<sup>th</sup> January the march was resumed and enemy outposts were reached. Firing commenced shortly after noon but casualties were light. WILSON A.W

**Corporal A Charles WILSON. 26<sup>th</sup> Mechanised Ammunition Convoy, Royal Army Service Corps.** Died 1<sup>st</sup> March 1923. Resided The Limes, Great Chart. Son of Alice Wilson (nee Russell).

This man died nearly 5 years after the Great War ended. The circumstances of his death are unknown but it seems likely that he either died directly of wounds received during the Great War or was killed on active service in one of the British overseas possessions.

The Ashford 1918 Absentee Voters List gives –

The Limes, Great Chart

**167563 Alexander Charles WILSON. 26<sup>th</sup> Company, M.A.C.**

If he died of wounds received in the Great War, the reason why his name is not recorded by the Commonwealth War Graves Commission is probably because he was swiftly discharged from the army on medical grounds and died years later. There were many men like this who were casualties of war but were literally forgotten...
